

## TORO Properties Group Testimonial

---

“I am an owner/operator of about 1,100 1960s vintage apartments in Atlanta, and your StoveTop FireStops are in every single apartment. Careless cooking is the #1 cause of apartment fires, and your devices have put out more fires than I can remember in my ten years in the industry... I stopped counting the 20th time your devices went off! They have saved me hundreds of thousands by mitigating more extensive fire damage, and kept my property insurance premiums low. Every apartment in America should have your devices. Thank you, StoveTop FireStop—you're a lifesaver!”

**Brent Sobol, Managing Director**  
**TORO Properties Group - Atlanta, GA**

**Damage confined to venthood and cabinets.**

**Due to minimal kitchen damage, the property owner simply replaced the cabinets, venthood, and cooktop. No water damage!**
